Knitting for vulnerable infants

4 Baystone Drive Cranbourne 3977

16th May, 2007.

Dear Knitters everywhere

Unfortunately we are calling a stop to this very worthwhile project. The volume that has been produced and sent to the orphans and vulnerable infants has been absolutely overwhelming thanks to you all.

Last week we asked you to slow down and concentrate on the larger jumpers, after the weekend when between the three of us we received 10,000 items over two days we realized that we cannot continue at this pace.

This is what we are asking you to do. Send in all your completed knitting, we will see that it reaches the children, as you all know this has always been our prime objective. Allow us some time to form a working committee (at the moment the three of us are literally wearing ourselves out).

When we have formed the committee and worked out a new plan of action with a group of people who feel as strongly as we do about the plight of the orphans of Africa and the vulnerable infants of the world we will be in touch and resume this project with a new plan and new patterns.

Kind Regards,

Ken, Lyn & Elsie.
