

! Stop Press !

Knitting for vulnerable infants

4 Baystone Drive Cranbourne 3977

July, 2007.

Dear Knitters everywhere

Unfortunately we are calling a stop to this very worthwhile project for the time being. The volume that has been produced and sent to the orphans and vulnerable infants has been absolutely overwhelming thanks to you all. This is what we are asking you to do. Send in all your completed knitting, we will see that it reaches the children, as you all know this has always been our prime objective. We have secured a space on a container so we need to call in all of your knitting very quickly. Allow us some time to form a working committee (at the moment the three of us are literally wearing ourselves out).

When we have formed the committee and worked out a new plan of action with a group of people who feel as strongly as we all do about the plight of the orphans of Africa and the vulnerable infants of the world we will be in touch and resume this project with a new plan and **new patterns, so please do not start any new garments with the old patterns.** If you want us to put you on file to be contacted when we resume please send a self stamped addressed envelope and a short note we will contact you. Total sent to date....205,000 plus hundreds of dolls and hats. **You must please stop for now.**

Kind Regards,

Ken, Lyn & Elsie.
